STUDY ON THE IMPACT OF MICRO & SMALL ENTERPRISES (MSE) FACILITATION

COUNCILS UNDER THE MEMED ACT 2006

Micro and Small Enterprises are invariably encountered with the delays in the payments of the supplies made by them to its customers and some time they feel helpless. In such situations, the Micro & Small Enterprises Facilitation Council envisaged under the Micro, Small & Medium Enterprises Development Act, 2006, in every State & Union Territories of India could be helpful in the recovery of delayed payment of Micro & Small Enterprises. However, it is noticed that very few Micro and Small Entrepreneurs are utilizing this forum. There must be valid reasons for this low utilization level. Through this study, Indian Industries Association aims at bringing out the status on to the surface and submits its report / representation to the Government of India for amicable solution.

Cooperation of IIA Members is therefore sought to complete this assignment successfully for which we need your feed back through the following questionnaire attached with this mail. You are requested fill up this questionnaire and mail back to IIA Head Office either by mail or by post latest by 19th April 2012 positively.
