The Chairman
Indian Industries Association

Subject: Regarding cooperation and collaboration between IIA and FNIC .

First of all we thank you and your entire team for taking out valuable time during the visit of NEPAL INVESTMENT SUMMIT 2024 in Kathmandu and interaction with team INDIAN INDUSTRIES ASSOCIATION. Our entire team are very much enthusiastic about this association and willing to take it forward. The meeting was fruitful and we have developed a common vision to work together helping our members get mutual benefits.

As you already know, Federation of Nepalese Industries and Commerce is an umbrella organization of industrialists and traders. We are dedicated, " to developing a successful and respected Industrialist and Traders community with the highest ethical standard that truly believes in Hard-work, Network, Value-addition, Invention, and Innovation to grow together in the global market with a strong foundation at the local level".

Let's initiate this journey, let's join together to march ahead in this era of global village with the use of science & technology bridging the gaps to help our members to grow together which will certainly be mutually useful to the both organisations as well as to the nations. Thank you for your cooperation and understanding.

Best Regards

The President
Federation of Nepalese Industries and Commerce.

Subject: Regarding cooperation and collaboration between FNIC and IIA.

Sir,

First of all we thank you and your entire team for taking out valuable time during the visit of NEPAL INVESTMENT SUMMIT 2024 in Kathmandu and interaction with team Federation of Nepalese Industries and Commerce. Our entire team are very much enthusiastic about this federation and willing to take it forward. The meeting was fruitful and we have developed a common vision to work together helping our members get mutual benefits.

As you already know, the Indian Industries Association is an all India Association of industries. We are dedicated, " to developing a successful and respected Industrialist community with the highest ethical standard that truly believes in Hard-work, Network, Value-addition, Invention, and Innovation to grow together in the global market with a strong foundation at the local level".

Let's initiate this journey, let's join together to march ahead in this era of global village with the use of science & technology bridging the gaps to help our members to grow together which will certainly be mutually useful to the both organisations as well as to the nations.

Thank you for your cooperation and understanding.

Best Regards
