Sir,

As per interaction during discussion of Agenda on 17/3/09, IIA is sending a comparative Chart (Obtained through Internet) of Electrical Goods and Transformer etc. to substantiate its argument that the goods are heavily taxed in U.P & rendered incompetent while protecting outside States to usurp our manufacture/Trade.

It is requested that the VAT Rates on Electrical Goods & Transformers may kindly be reduced to 4%. Copy of the comparative chart is enclosed at Annexure-I.

Thanking you,

Yours truly,

D.S. Verma
Executive Director
